

LFS-50WT WA230 Polypropylene (B.O.P.P.)

FEATURES

- good film profile
- excellent glue adhesion
- excellent ink adhesion
- supported or unsupported
- soft but strong
- good die cutting

DESCRIPTION: LFS-50WT (WA230) is a white polypropylene film. LSF-50WT is treated one side chemically and primed the other, to promote good adhesion of inks and adhesives. Can be supported or unsupported. Excellent for digital printing on chemically primed surface.

APPLICATIONS: Pressure sensitive labels, supported banners and promotions

PHYSICAL PROPERTIES:

<u>Property</u>	<u>Units</u>	<u>Testing Method</u>	<u>Gauge</u>
Gauge	mil		.0023
Yield	in.sq./lb.		12,160
Gloss (45°)	%	ASTM D2457	70
Tensile Strength	PSI	ASTM D882	MD 26,800 TD 22,400
COF	Kinetic	ASTM D1894	0.35
Optical Opacity		BS4432.6	80
